SUMMARY

I am a final-year BTECH CSE student specializing in full-stack development with expertise in the MERN stack. Adept at architecting comprehensive web solutions, I excel in creating sleek, user-centric interfaces and ensuring robust functionality. Committed to transforming concepts into fully deployed applications, I leverage cutting-edge technologies to deliver impactful and intuitive digital experiences.

EXPERIENCE

Full Stack Developer

Softpro India Computer Technologies

📅 07/2024 - 09/2024

- During my internship, I gained hands-on experience with various technologies and applied them to create functional, responsive web applications.
- I developed more than 10 projects from scratch, ranging from simple to advanced levels.
- Notably, I created a full-stack project—Customer Query Management—using the MERN stack and REST APIs, as well as a frontend project—my personal portfolio & several projects, such as Funky Times, TextUtils, a Spotify clone, a weather app, Tic Tac Toe and others.
- **Tech Stack:** HTML, CSS, JavaScript, MongoDB, Express.js, ReactJS, Node.js

Web Developer Trainee

Internshala

- I completed an 8-week web development internship, where I gained hands-on experience with multiple technologies and successfully utilized them to develop functional and responsive web application.
- Created a Online Food Ordering website where customers can easily browse through various delicacies and place their order.
- **Tech Stack:** HTML, CSS, Bootstrap, JavaScript, ReactJS, MySQL

PROJECTS

SecretScript

Nots app - Keep it safe, keep it private.
- **Tech Stack:** MongoDB, Express.js, ReactJS, Node.js
- Built a full-stack notes app focused on secure and private notes management.
- Engineered seamless CRUD operations for efficient note handling, with dynamic content management & responsive design.
- Integrated user authentication for secure login and registration processes.

Personal Portfolio

My own Portfolio showcasing my skills.
- **Tech Stack:** ReactJS, Firebase
- Developed a dynamic portfolio highlighting my skills, experience, and projects.
- Designed an intuitive layout with dedicated sections for About Me, Skills, Projects, Certifications and Contact.
- Included features to download my resume, view projects on GitHub.

NewsHub

Daily Dose of Breaking news & insights.
- **Tech Stack:** ReactJS, NewsApi, Bootstrap
- Created a dynamic news platform that showcases global news from various countries using NewsAPI, featuring an intuitive card-based layout.
- Created a user-friendly navbar that makes it a breeze to explore news from various categories and regions.
- Integrated a sleek dark mode feature to enhance user experience and "Read More" feature for detailed articles, enhancing user engagement.
